Presenters

John W. Yusza Jr.

John is President/Owner of Monitor Controls Inc of Wallingford, CT. John has personally installed and supervised the installation of hundreds of low voltage related systems including intrusion, fire, communications, video and access control in residences and commercial buildings, child care facilities, health care facilities, health management facilities and educational institutions. Systems have included interfacing of sprinkler suppression, elevator recall and integration with HVAC, smoke control, LAN and internet access video systems. John holds licenses in CT, RI and MA and has served as the Connecticut Alarm & Systems Integrators Association Chair of the Educational Committee. John has also been awarded the National Training School State training Coordinator of the Year Award. John is also a graduate of the Ward Institute of Technology at the University of Hartford.

Jason E. Sokol

Jason has worked in the alarm industry since 1988 where he began as a installation Technician and worked his way up to Central Station Manager and then to the Director of Operations for Monitor Controls Inc. Jason responsibilities include the management of all critical systems including central station receiving equipment, all internal desktop units, network units, power supplies,

Presenters continued;

Generator, telephone systems, fire, security, access control and video. Jason also is responsible for all client related computer and networking operations as they relate to access control, video monitoring/retrieval and internet monitoring. Jason is the current president of the Connecticut Alarm & Systems Integrators Association and has served in numerous positions in that organization.
